Partners in the Community..... 20

AVANGRID is the embodiment of community. Our clean energy facilities and smart grids connect our customers and communities to a vital resource that powers everyday life and work. In partnership with the Avangrid Foundation, we can deepen those connections by investing not only in infrastructure, but also in the well-being of our communities and the people who live in them. This commitment helps ensure that the whole extended “grid” — the one in which we live — remains vital.

James P. Torgerson
President, Avangrid Foundation

We Put Energy into What Really Matters

In so many ways, 2017 was a remarkable year for the Avangrid Foundation. Based in Orange, Connecticut, the Foundation is the primary charitable arm of AVANGRID, Inc. and its operating companies Avangrid Renewables, Berkshire Gas, CMP, CNG, Maine Natural Gas, NYSEG, RG&E, SCG and UI.*

Certainly, the easiest way to measure our impact is to highlight the amount of funding awarded to our partners during the year, which surpassed \$5.6 million in giving to over 650 organizations through grants, scholarships and employee giving matches.

Further, we are grateful to have had the opportunity to provide services and experiences for many individuals and families this year. While counting beneficiaries is rarely an exact science, we know that our investments in programs focused on social welfare alone (like food, shelter and services) have impacted more than a quarter of a million people directly in urban, rural and peri-urban communities across the United States. Our investments

in postsecondary education, scholarships and workforce helped more than 1,000 students and workers this year, and some investments supporting training and higher education programs will have perpetual impact. Indirectly our investments have touched many thousands more, at home and abroad.

These are big numbers, but they don't tell the whole story.

How the Avangrid Foundation allocated that money, along with the ongoing work to bring projects funded in prior years to fruition, is what made 2017 a time of building sustainable communities, helping vulnerable persons and advancing education.

PRIORITY AREAS	
Art & Culture:	\$ 345,078
Biodiversity, Environment & Climate Action:	\$ 2,584,000
Community Partnerships:	\$ 1,829,305
Education, Training & Research:	\$ 891,029

We work to spread good will by enhancing sustainability and quality of life in the communities we serve.

*AVANGRID, Inc. is an affiliate of Iberdrola, S.A.

LET'S TAKE A CLOSER LOOK

The Avangrid Foundation is aligned with the AVANGRID mission of a low-carbon future. By making investments with "green" practices in mind, the Avangrid Foundation further promotes the sustainability of communities where AVANGRID is already working to reduce emissions intensity by 25% by the year 2020 compared to our 2015 baseline and to be carbon neutral by 2035. Though in 2017, we provided funding for and

realized the impact of many ongoing investments across a diverse group of partners, access to clean and affordable energy, sustainability and climate action underscored the majority of our giving.

Education is important to us. The Foundation partnered with several schools, research institutes and museums to support S.T.E.M., environment and climate action-related curriculum development and educational programs. Our partners in this effort include leading institutions like the Peabody Museum of Natural History at Yale University, the Maine State Museum, the Rochester Museum and Science Center, the Will Steger Foundation and Girls, Inc.

Quality housing is vital for strong communities. The Foundation assisted with the construction of energy-efficient affordable housing through a partnership with multiple Habitat for Humanity chapters.

Cultural and service organizations make communities sustainable. The Foundation supported energy-efficient capital improvement projects including several arts and theater organizations and community service organizations like the Bridgeport (Conn.) Rescue Mission, Mercy House of the Southern Tier and the Ronald McDonald House of Connecticut.

We promote responsible consumption and production while helping those in need.

Our support for food banks helps hungry families meet basic needs in Connecticut, Massachusetts, Maine, New York and Oregon. These investments also support local purchasing and food waste recycling. One highlight was the opening of the Avangrid Foundation – CHOW® warehouse in partnership with the Broome County (NY) Council of Churches. This new warehouse, opened in spring of 2017, will support the distribution of over a million meals a year to families in need.

A healthy environment makes what we do possible. Our support for habitat preservation and wildlife conservation included competitive grants for bird rehabilitation, funds for watershed

NEW YORK: COMMUNITY PARTNERSHIPS/EDUCATION
*It is because of organizations like the Avangrid Foundation that the **Ibero American Action League, Inc.** is able to deliver our award-winning programs to more than 200 children and families in Rochester. We focus on literacy, socialization skills and youth programs aimed at improving attendance, academic performance and leadership abilities. We also support families through workshops on children's education, financial literacy, securing employment and buying a home.*
Through our partnership, we have seen families – many of whom are from the fourth poorest neighborhood in the United States – thrive in school, at home and in the workplace. These things all lead to building stronger families and stronger communities.

Hilda Rosario Escher, President and CEO

restoration along the Hudson River in New York and land conservation throughout the Northeast. In Maine, the Foundation celebrated the installation of electric vehicle charging stations and solar arrays as part of an ongoing project.

We are also here to help. Throughout 2017, there was an expanded focus on disaster preparedness and emergency relief for communities affected by natural disaster.

PRIORITY AREAS OF GIVING

Art & Culture
Safeguarding artistic and cultural heritage through conservation, restoration and local development

Biodiversity, Environment & Climate Action
Protecting the environment, enhancing biodiversity and fighting climate change

Community Partnerships
Helping the most vulnerable people

Education, Training & Research
Developing leaders and supporting innovation

The roots of the Avangrid Foundation date back to 2002, having been known by other names including the Energy East Foundation and the Iberdrola USA Foundation. Since AVANGRID, Inc. was formed in 2015, the Avangrid Foundation has been working to continue and build on the historic legacy of giving in our communities. In 2017 we developed a strategic roadmap to help use social value and a focus on what really matters – investing in an increasing number of sustainable communities and improving the quality of life for people.

We are truly local and global. The United Nations' Sustainable Development Goals, detailed on page 7, are guideposts in that roadmap. In 2018, our partners can expect to see the Avangrid Foundation accept the U.N.'s call for global action to tackle the major environmental, social and economic challenges threatening the future of the planet.

So, yes, 2017 featured a big number. But how we put our “energy” into supporting our communities is what really matters.

Our Board of Directors

FINANCIAL STATEMENTS FOR 2017
Avangrid Foundation Summary of Accounts

Since the company was established in 2015, AVANGRID, Inc. and its subsidiaries have contributed more than \$7 million to the Avangrid Foundation.*

FINANCIAL OUTCOMES FOR 2017
The Avangrid Foundation's income in 2017 was \$4,091,802.

The Foundation made \$5,649,412 in grants and charitable contributions and an additional \$171,057 in administrative expenses, for a net income of \$5,820,469.

Unrestricted net assets at the end of the period were \$6,529,503, including \$600,000 in committed and designated grants and contributions to be paid after 2017.

FUNDING SOURCES
The primary contributors to the Foundation in 2017 were AVANGRID, Inc. and its operating companies, with further funding approved for 2018. In addition, the Foundation earns revenue through rental and investment income that is used in grant making.

INVESTMENT POLICY
Aside from retaining a reasonable amount in reserves each period, most of the Foundation's funds are to be spent in the

short-term so that there are few funds for longer-term investment.

The Board of Directors reviews the banking arrangements and investments on an ongoing basis, ensuring maximum returns to the Foundation as far as possible with minimized risk and impediment to overall grant-making.

REAL ESTATE POLICY
The Foundation owns limited real estate and manages the portfolio to offset the expenses and to increase the amount of unrestricted funds to be used in grant-making each year. The Foundation may rent or sell real estate assets as part of the overall financial strategy of the organization. These properties were received via donation to predecessor entities and were transferred to the Avangrid Foundation.

RESERVES POLICY
Reserves are needed to meet the working capital requirements of the Foundation during a period of growth and development, and the Board of Directors remains confident that the current level of reserves is sufficient to allow for the continued activities of the Foundation through 2018.

REVENUES	
Rental income	\$ 474,091
Contributions	\$ 3,537,656
Interest income	\$ 80,055

Total Revenues \$ 4,091,802

EXPENSES	
Grants and charitable contributions	\$ 5,649,412
Rental expenses	\$ 139,288
Administrative expenses	\$ 31,769

Total Expenditure \$ 5,820,469

BALANCE SHEET	
AS OF DECEMBER 31, 2017 (cash basis)	
Cash (Current Assets)	\$ 3,662,062
Property	\$ 2,867,441
Liabilities	\$ 0
Net Assets (unrestricted)	\$ 6,529,503

In 2017, the Foundation made 157 individual grants, matching gifts and donations to organizations that ranged in size from \$50 to \$2.5 million.

*Additional resources were incorporated from the former Iberdrola USA Foundation.

2017 Highlights

Support for basic needs
 like housing, fuel assistance
 and food reached over 250,000
 individuals and their families.

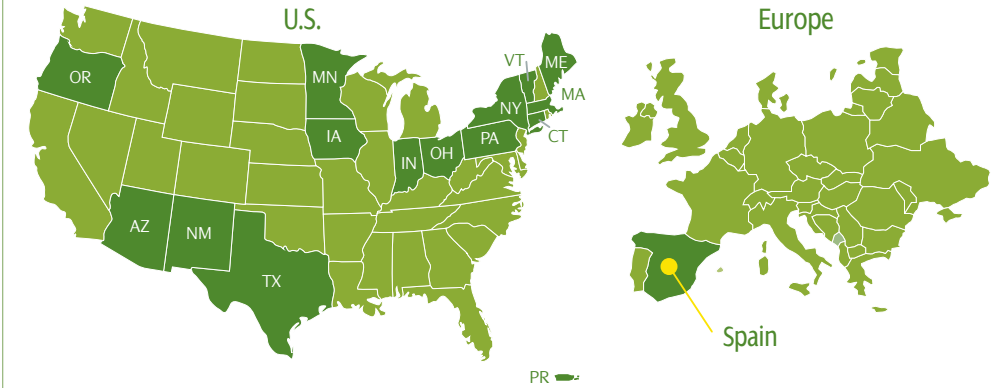

Invested more than \$3.25M
on scholarships in higher
education and research
partnerships. In 2017, the Avangrid
 Foundation Scholarship Program
 provided 10 scholars fully funded
 MA degrees in energy and
 engineering at leading universities
 in the United States and Spain.
#lightforyourfuture

Helped provide **emergency**
response services to millions
of people after severe weather
 events by supporting the American
 Red Cross, Save the Children
 and Salvation Army.

A Worldwide Impact

The Avangrid Foundation focuses giving primarily in, but not limited to, organizations with a presence in the communities we serve, both in our everyday work and in those times and places of extraordinary crisis or special need. We also invest with prominent partners that are making a difference locally and globally in the areas of higher education, environment and climate action and sustainable development. Overseas we provided emergency humanitarian assistance to hurricane-ravaged Puerto Rico and the Caribbean, and awarded scholarships for U.S.-based students to study in the United States and abroad.

U.N. Sustainable Development Goals

The Avangrid Foundation's giving aligns with the United Nations' Sustainable Development Goals (SDGs), a call for global action to tackle the major environmental, social and economic challenges threatening the future of the planet through more inclusive and sustainable development models.

What We Did. Who We Worked With. Who We Are.

Partner: Bridgeport Rescue Mission

COMMUNITY PARTNERSHIP

Mission: Bridgeport Rescue Mission (BRM) demonstrates the love of God to the hungry, homeless and addicted. We provide a place of hope and dignity, fighting poverty from the inside out.

Location: Bridgeport, Connecticut.

Beneficiaries: More than 7,500 men, women and children annually.

Duration: One-time gift, in partnership with United Illuminating and Southern Connecticut Gas.

What: Installation of an energy-efficient commercial-grade walk-in refrigerator to support the community kitchen and pantry.

Why did we do it?

Impact:

- The more efficient large-capacity walk-in unit replaced a 40-year-old wall unit in an old, inefficient kitchen.

- Bridgeport Rescue Mission was able to respond directly to the rising need for food assistance in Fairfield County as food insecurity has risen in Connecticut.
- BRM served 450,000 meals in 2016. In 2017 the number rose to 550,000 meals, and the new refrigerator was key in helping to meet the increased need.

Our Ongoing Role:

AVANGRID employees serve on the BRM board and as volunteers. The Foundation's gift continues to be leveraged for the community.

Avangrid Foundation Board Director Robert Kump serves food at the BRM.

For more information:

[youtube.com/watch?v=DuesQz3Mu6A](https://www.youtube.com/watch?v=DuesQz3Mu6A)

The Avangrid Foundation team took a genuine interest in our work feeding hungry families. They visited the Mission and were able to witness firsthand how the new walk-in refrigeration unit changed our ability to serve the community.

Kim F. Fawcett
Director of Strategic Partnerships

OREGON: COMMUNITY PARTNERSHIPS

The Avangrid Foundation support for the **Oregon-based Chelsea Hicks Foundation** helps children fighting serious illness become “warriors,” finding hope and strength to beat their odds through costume dress-up and play. Research shows that active therapeutic play can promote normal development and significantly reduce the psychological and physiological stress for children facing serious medical challenges.

Sabrina Prill, Co-Founder & CFO

MAINE: SCHOLARSHIPS, EDUCATION & TRAINING

The partnership between the Avangrid Foundation, Central Maine Power and **Kennebec Valley Community Colleges** provides extraordinary opportunities for students, educators and the local workforce. Scholarship gifts provided by the Avangrid Foundation ensure educational and career pathways for students, and the program advising and technical support provided by CMP ensures that students receive high-quality, workforce-relevant education and practical experiences.

Michelle Webb, Executive Director

NEW YORK: ENVIRONMENT & CLIMATE ACTION

Avangrid Foundation has been a good neighbor and friend of **Lasdon Park & Arboretum**. This continued support has seen our annual attendance climb to 100,000 visitors from the tri-state region. More than 50% of our visitors are NYSEG customers and are reminded of your commitment to this park and our mission to educate the public on the environment and conservation.

AVANGRID has helped make it possible to create a unique, lasting educational experience for the people of the Lower Hudson Valley and beyond that will advance our understanding of conservation and the botanical world.

Ted C. Kozlowski, Coordinator of Natural Resources

Partner: Working Cities Challenge

COMMUNITY PARTNERSHIP

Mission: Improve the lives of low-income residents and communities of color in Connecticut over 10 years; a partnership of the Federal Reserve Bank of Boston with the Connecticut Council for Philanthropy.

Location: Eligible cities across Connecticut.

Beneficiaries: Tens of thousands of people statewide, directly and indirectly.

Duration: Three-year grant, with ongoing collaboration.

What:

- The Working Cities Challenge (WCC) provides funding and a framework of engagement for leaders from the public, private and nonprofit sectors to tackle complex challenges facing post-industrial cities and to achieve large-scale impact with a focus on sustainable development, increased economic opportunities, poverty reduction and better social outcomes for at-risk residents.

- Five Connecticut cities were awarded \$450,000 in grants to support the development of collaboratively designed programs. These cities are Danbury, East Hartford, Hartford, Middletown and Waterbury.

Why did we do it?

Impact:

- In Danbury, the grant will address underemployment and unemployment of low-income immigrants by building a network of services to provide proficiency in language skills and access to childcare services, enabling access to better jobs.

- In East Hartford, the grant will improve the quality of life for residents in the Silver Lane neighborhood by enhancing workforce development and educational resources for a largely immigrant community.
- In Hartford, the grant will tackle two challenges in South Hartford: endemic poverty and the need for an educated workforce to attract and retain employers in the capital city and the region.
- In Middletown, over 20 organizations will collaborate to increase the earning power of single-parent households by identifying meaningful employment opportunities and providing training and resources to obtain living-wage, career-sustaining work.
- In Waterbury, a focus on the isolated South End neighborhood, with a 23% unemployment rate, will enhance job training and childcare services to help residents earn a living wage.

Our Ongoing Role:

- The Avangrid Foundation is a leading private donor to the WCC in Connecticut and plays an active role in the Steering Committee. We will continue to engage on implementation and results.
- The Avangrid Foundation expects to support the Federal Reserve Bank of Boston as it expands WCC throughout Northern New England.

For more information:

youtube.com/watch?v=2HNHeKw57WA

Photo credit: Federal Reserve Bank of Boston

Partner: Broome County Council of Churches

COMMUNITY PARTNERSHIP

Mission: Connecting compassion with needs, inspiring growth with dignity.

Location: Binghamton, New York.

Beneficiaries: More than 50,000 individuals per year.

Duration: Gifts in 2015 and 2016 in partnership with NYSEG; warehouse opened in June 2017.

What: Capacity building and renovations to Community Hunger Outreach Warehouse (CHOW®), Renovations to CHOW include a forklift-ready, energy-efficient refrigerator and freezer room, a larger sorting area to handle incoming items and space for an additional 88,000 pounds of food.

Why did we do it?

Impact:

- The renovated warehouse is helping to meet growing needs more efficiently. CHOW, through its network of nearly 100 partner agencies (pantries, community meals and nonprofit organizations), distributes over 2 million pounds of food each year.

- Improved management of food waste and food recycling locally increased capacity to train and hire workers and to provide job and volunteer opportunities, including to at-risk or vulnerable groups.

Our Ongoing Role:

The Avangrid Foundation funded approximately half the total cost of renovations. In June 2017, the expanded facility opened as “Avangrid Foundation–CHOW,” which represents the ongoing commitment to helping communities make strides in the battle against hunger.

Prior to the renovations, CHOW did not have the capacity to accommodate large donations of perishable foods and fresh produce. Thanks to our partners, our newly renovated warehouse allows CHOW to accept and distribute greater quantities of healthy foods to help our neighbors in Broome County.

Rev. Dr. Joseph Sellepack, Executive Director

NEW YORK: ENVIRONMENT & CLIMATE ACTION

*Our work is made possible by the generous support of our **Adirondack Research Consortium** partners, like the Avangrid Foundation, who share our passion for promoting research and information to inform policies impacting the region. Together we are finding ways to better serve our members, partnering organizations and the Adirondack community.*

Daniel T. Fitts, Executive Director

NEW YORK: ENVIRONMENT & CLIMATE ACTION

***Riverkeeper** is incredibly lucky to work with more than 120 community groups, partner organizations, individuals and funders like the Avangrid Foundation across New York City and the Hudson Valley who share our vision for a trash-free Hudson River. Without their partnership, Riverkeeper Sweep would not be possible.*

Jen Benson, Education and Outreach Coordinator

May 2017: 1,765 volunteers, including employees from AVANGRID and NYSEG, hauled 26 tons of trash from the Hudson River shorelines at 102 locations at the Sixth Annual Riverkeeper Sweep.

CONNECTICUT: ART & CULTURE

As a presenting sponsor of the **International Festival of Arts & Ideas**, the Avangrid Foundation's generous support allows us to continue to bring the highest-quality mix of electric and energizing performances, artists and activities from around the world to New Haven, Connecticut.

In 2017 the festival offered more than 200 events from June 3–24. More than 80% of these programs were offered free of charge, including all of the

programs that took place as part of our “Scene on the Green” programming and Headliner Concert Series, made possible thanks to the sponsorship of the Avangrid Foundation. Highlights included main stage performances each weekend from the Jimmy Greene Quartet, Troker, Rusted Root and The Wailers. During the week, the Green was kept alive through family-friendly daytime concerts, hands-on art installations, yoga and dance lessons.

Tom Griggs, Co-Director & Director of Development

Partner: Friends of the Maine State Museum

ARTS & CULTURE/CLIMATE EDUCATION

Mission: The Maine State Museum builds and maintains systematic collections regarding Maine's pre-history, history and natural science.

Location: Augusta, Maine.

Beneficiaries: More than 14,000 students annually and 20,000 visitors overall. The museum hosts 50,000 visitors per year. This number is expected to rise with the ability to create virtual visits and educational programming.

Duration: Two-year capital grant with ongoing collaboration in partnership with Central Maine Power.

What: Enhancement of the Energy Zone in the museum's Discovery Center that includes modernization, technology, S.T.E.M. adaptation and education. The new education center will open in the summer of 2020.

Why did we do it?

Impact:

- The Maine State Museum will develop educational programming areas where hands-on learning can be employed. This update addresses the needs of 21st-century learning and facilitates distance-learning opportunities, S.T.E.M.-based learning and growing demand for family-centric discovery programming.

- A new 2,500-square-foot Discovery Center will replace two outdated exhibits at the museum. This state-of-the-art center will provide comfortable, transformative and flexible places for hands-on exhibits, plus workspaces to accommodate many levels of learning. The principal audience for the center will be students in grades 4-8 and family groups.

Our Ongoing Role:

The Foundation provided seed capital to support the creation of the Discovery Center through planning and prototyping. It also will fund the development of the Avangrid Foundation and Central Maine Power Energy Zone. The zone will

Jennifer Dube, Director of Development, Friends of the Maine State Museum

Bernard Fishman, Director, The Maine State Museum

include a series of Science Spots using labels, kiosks and education posts to enhance popular science-related exhibits. The gift will help the museum's scientists and educators realize the vision of energy pathways and information stations that will better connect visitors to vital exhibit themes.

The Maine State Museum is delighted to be a recipient of the Avangrid Foundation's philanthropic giving program. The seed funding has been instrumental in launching the museum's ability to advance S.T.E.M.-based learning initiatives for students and families. The Foundation's investment allows museum educators, scientists, curators, teachers and students the ability to create new scientific discovery experiences that will be vital to programming in a new museum education center for families. We believe that we have true partners invested in innovation that will advance educational outcomes.

Partner: Greater Than (formerly “I Have a Dream” Oregon)

SCHOLARSHIPS, EDUCATION & TRAINING

Mission: To support and empower students from poverty-impacted communities to thrive in school, college and career. To that end, we identify and convene quality best-in-class partners (based on track record and evidence of impact) and recruit them to join our collaborative whole-school model on their own dime.

Location: Portland, Oregon.

Beneficiaries: Direct support of postsecondary scholarships for eight to 15 students per year. Funds for programming indirectly support more than 850 students annually, with 300 in mentoring and 160 families receiving other services including housing assistance.

Duration: Long-term relationship in partnership with Avangrid Renewables, including support in 2017.

What:

- Youth from poverty-impacted communities are able to access higher education though intensive, multi-year academic support and wrap-around services for families.
- Greater Than began in 1990 as “I Have a Dream” Oregon, partnering with schools in poverty-impacted areas by selecting a third-grade class to be a Dreamer Class. These “College Dreamers” receive three core services: mentoring, academic and social services. Dreamer Class students are also eligible for scholarships.

- Programs evolved to include a “Whole School Model” that mobilizes a wide array of community resources to support educational success, expose students to higher education from a young age and build on the strengths and potential of all students and their families.
- The model advances racial equity as a foundational element of all aspects of the work for all stakeholders, with a focus on dismantling systemic barriers to educational success.

Our Ongoing Role:

Since 2009 the Avangrid Foundation and predecessor organizations have donated more than \$85,000 to support the Dreamer Scholarship Fund.

Why did we do it?

Impact:

- Approximately 50 students receive college support services annually. More than 1,100 students have benefited from Greater Than’s programs in the most poverty-impacted areas of Portland. These students persevere in the face of many significant challenges and numerous barriers to success.

Tracy Bair, Grants & Gifts Manager

“I Have a Dream” Oregon, now known as Greater Than, is 100% philanthropically funded, and the Avangrid Foundation is one of a few foundations that will fund scholarships. We are grateful to partner with the Avangrid Foundation to carry out our mission to support and empower students from poverty-impacted communities to thrive in school, college and their careers.

MAINE: COMMUNITY PARTNERSHIP

We were thrilled with the Avangrid Foundation’s positive and generous response to **Habitat for Humanity of Greater Portland’s** request to support the construction of 13 energy-efficient affordable homes for low- to middle-income residents. They were easy to work with, understood the environmental goals we pursued and gave generously with advice for our success.

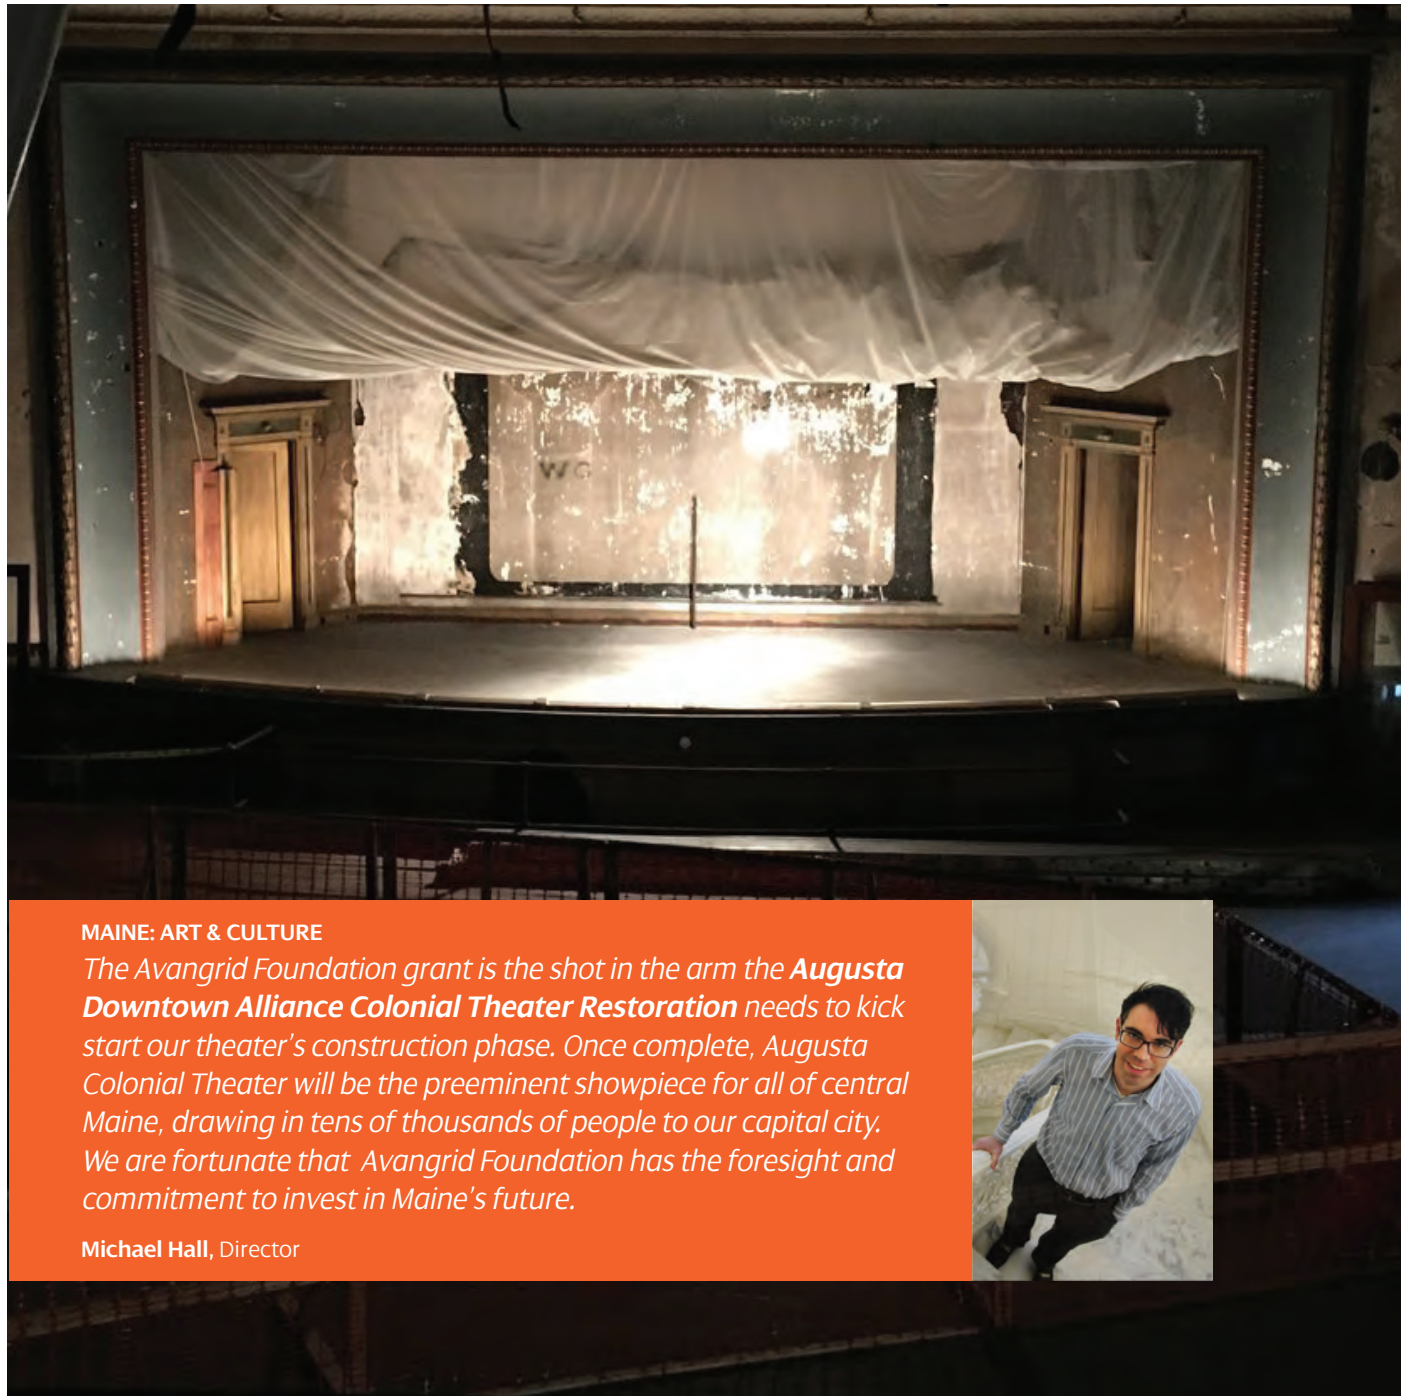

Godfrey Wood, Executive Director

MASSACHUSETTS: COMMUNITY PARTNERSHIP

Working for Worcester is proud and humbled to acknowledge the support of the Avangrid Foundation toward the project and the City of Worcester! Our work has transformed over 100 spaces, engaged 5,000 volunteers and invested over \$1 million. Together we have built a sustainable organization and expanded our impact across the city. Thank you for joining us in our mission to provide safe recreation to our community!

Colleen Naber, Executive Director

MAINE: ART & CULTURE

The Avangrid Foundation grant is the shot in the arm the **Augusta Downtown Alliance Colonial Theater Restoration** needs to kick start our theater's construction phase. Once complete, Augusta Colonial Theater will be the preeminent showpiece for all of central Maine, drawing in tens of thousands of people to our capital city. We are fortunate that Avangrid Foundation has the foresight and commitment to invest in Maine's future.

Michael Hall, Director

Partner: Massachusetts Museum of Contemporary Art (MASS MoCA)
ARTS & CULTURE

Mission: MASS MoCA helps artists and their supporters create and show important new work, bringing to its visitors bold visual and performing art in all stages of production, while also creating a stimulating center of creativity and commerce that brings life and economic vibrancy.

Location: North Adams, Massachusetts.

Beneficiaries: More than 250,000 visitors per year and growing, with a broad economic benefit to Berkshire County and the surrounding area.

Duration: Historic and ongoing, in partnership with Berkshire Gas Company.

What: Investment in Mass MoCA expansion, exhibits and programs includes:

- Support for renovation of Building 6, the Robert W. Wilson Building, a 130,000-square-foot expansion to its galleries and operating space as well as its 30,000-square-foot interior courtyards.

- Lead sponsor for the Gunnar Schonbeck exhibit, "No Experience Required," on display until 2019 or beyond.
- Support for "Free Day" programming in 2017 and 2018. More than 4,000 visitors have taken advantage of this opportunity.
- Permanent named gallery.

Why did we do it?

Impact

- MASS MoCA has become one of the world's largest and most productive centers for making and showing new contemporary art. All 26 buildings on MoCA's 19th-century factory campus are on the National Historic Register, including Building 6.

- MASS MoCA is a cornerstone of the Berkshire County economy and community. It is one of the most important cultural destinations in a region that is known internationally for cultural tourism and its creative economy.

Our Ongoing Role

- The Avangrid Foundation and Berkshire Gas continue an ongoing partnership with Mass MoCA that includes a permanent gallery for new and upcoming artists and diverse programming that attracts wide audiences.
- "No Experience Required" is both a hands-on experience for museum-goers and an investment in the permanent care of historically important and endangered works.

About AVANGRID

AVANGRID, Inc. (NYSE: AGR) is a leading, sustainable energy company with \$31 billion in assets and operations in 24 U.S. states. AVANGRID has two primary lines of business: Avangrid Networks and Avangrid Renewables. Avangrid Networks owns eight electric and natural gas utilities, serving 3.2 million customers in New York and New England. Avangrid Renewables owns and operates 7.1 gigawatts of electricity capacity, primarily through wind power, with a presence in 22 states across the United States. AVANGRID employs approximately 6,500 people. AVANGRID supports the U.N.'s Sustainability Development Goals, received a Climate Development Project climate score of "A-," the top score received in the utilities sector, and has been recognized for two consecutive years by Ethical Boardroom as the North American utility with the "best corporate governance practices."
