Distance Zones

- 0.0 to 0.5 Mile Foreground Distance Zone
- 0.5 to 1.5 Mile Near Middle Ground Distance Zone
- 1.5 to 4.0 Mile Middle Ground Distance Zone
- 4.0 to 5.0 Mile Background Distance Zone

Notes:
1. Basemap: ESRI ArcGIS Online "World Topographic Map" map service.
2. Potential solar panel viewshed visibility is based on the screening effects of topography, vegetation, and man-made structures as represented in the FEMA 2007 and USGS 2014 dataset (resampled to 2 meter resolution). Sample points representing solar panels were placed throughout the prosed array in a grid pattern with a spacing of 200 feet as a basis for this analysis. Viewshed Analysis based on maximum solar panel height of 3.35 meters (11 feet).
3. This map was generated in ArcMap by Environmental Design and Research on May 15, 2019.
4. This is a color graphic. Reproduction in grayscale may misrepresent the data.
