Avangrid's Governance and Sustainability System is inspired by and based on a commitment to ethical principles, transparency and leadership in the application of best practices in good governance and is designed to be a working structure for principled actions, effective decision-making and appropriate monitoring of both compliance and performance. This Policy also supplements and further develops the *Corporate Reputation Policy* approved by the Board of Directors from time to time. Proper management by Avangrid of its Stakeholder engagement makes a decisive contribution to the achievement of the purpose of the *Human Rights Policy*.
