jobs supported across Avangrid's Maine operations

## Meet the CEO

**Linda Ball**  
President and CEO

Linda Ball currently serves as the President and CEO of Central Maine Power (CMP), committed to putting people and customers first while advancing smart investments to strengthen Maine's energy grid and ensure long-term resilience, reliability, and modernization.

Linda has 30 years of experience in the energy industry with a strong foundation in customer service and operational leadership. She began her career as an entry-level customer service representative at CMP's sister company, New York State Electric and Gas, and has since held key roles in customer service and smart grid operations. Since 2012, Linda has been a driving force behind CMP's storm response and customer service improvements. She has led efforts that earned industry recognition, including an Edison Electric Institute Emergency Response Award, and has driven impactful initiatives to exceed regulatory performance metrics.

## Working together to deliver the power America needs

### Reliability

Investing in the safety, security and resiliency of our service to meet the needs of our customers.

### Innovation

Leveraging the power of technology to transform the energy system for the future.

### 1899

Central Maine Power is founded by attorney Harvey Eaton and engineer Walter Wyman, initially serving about 100 customers in Oakland, Maine using a hydroelectric generator

### 1940

CMP supplies large amounts of electricity to support wartime industrial demand, including shipyards such as Bath Iron Works

### 1998

CMP leads historic power restoration efforts following the Ice Storm of 1998, restoring service to hundreds of thousands of customers

### 2008

CMP joins Energy East and becomes a part of Avangrid in 2025
