

PROFESSIONAL PROFILE AND BIOGRAPHICAL DATA

Member of the Avangrid Networks Board of Directors

Type: Executive

Current professional activities and positions

Mr. Purington serves as the Chief Executive Officer and President of Avangrid Networks, Inc. He serves as a member of the Avangrid Networks Board of Directors and many boards of directors of Avangrid Networks operating companies including Berkshire Gas Company, Central Maine Power Company, Connecticut Natural Gas Company, Maine Electric Power Company, New York State Electric & Gas Corporation, Rochester Gas and Electric Corporation, Southern Connecticut Gas Company, and The United Illuminating Company. He also serves as the President of Avangrid Service Company and is responsible for coordinating reporting obligations and overseeing shared services of Avangrid Networks and its subsidiaries.

Personal profile and academic training

Mr. Purington earned a bachelor's degree from Southern New Hampshire University and an associate degree from Southern Maine Vocational Technical Institute.

Mr. Purington serves on the executive boards of Maine & Company, Maine State Chamber of Commerce, Maine Community College Foundation, and Maine General Health.

Noteworthy experience in the energy sector

Mr. Purington was most recently President and Chief Executive Officer of Central Maine Power Company ("CMP"), overseeing and ensuring operational efficiency and maintaining effective communication with both employees and stakeholders.

Before becoming CMP President and CEO, he was Eversource's President of New Hampshire Operations, overseeing transmission, distribution, substations, and system operations. Mr. Purington also served as Eversource's VP of Operations, where he led efforts to modernize the New Hampshire electric system.

Mr. Purington previously served as Director of System Operations for Iberdrola USA (now Avangrid), transitioning CMP, NYSEG, and RG&E operations to a matrix organizational structure. He was responsible for ensuring that all energy control centers, and substation operations met compliance and regulatory requirements. He also served as Director of Electric Distribution at CMP, where he managed the utility's energy control center, led transmission and distribution system operations, and served as incident commander for large-scale power restoration efforts.
